

CALABASAS FILM FESTIVAL

The Patron Circle Experience

Exclusive access to filmmakers, talent, sneak previews, year round programming and VIP parties
all while celebrating the arts in our Community.

Festival At-A-Glance

The Calabasas Film Festival is a non profit, first- rate festival that includes major studio films, independent films and documentaries. Our goal is to always make the CFF festival “Calabasas centric,” embracing the community of studio executives, actors, writers and directors that live and work in our fair city.

The film festival is an opportunity to celebrate the history, geography and people that make up our diverse community. There are many industry “movers and shakers” in the area who generously donate their talent and time.

Beyond the entertainment value, a by-product of the event is the Hollywood deal making, increased tourism dollars and knowledge, pride and awareness of the city in which we live.
